### THE LIVE STOCK MARKETS

CATTLE VERY DULL AND IN LIMITED DEMAND FOR ALL GRADES.

Hogs Scarce and Five to Ten Cents Higher-Sheep Quiet and Steady-Condition of Other Markets.

UNION STOCKYARDS, INDIANAPOLIS, Sept. 13.-Cattle-Receipts, 200; shipments, 200. marketing of cattle this week compared with last same week a year ago and an increase of 1,000 over the corresponding week two years ago. et has been first up and then down all week, Thus far this year the receipts are a little less than 14,000 larger than the same period last year. Saturday. To-day's market was the strongest To some extent the market was again handicapped this week by the scarcity of strictly choice kind in their class, and the full strength | heavy hogs are rather scarce, not enough comwas probably not developed on that account. Ing to fill orders. Eastern men have been the mainstay of the market, local packers being absent from the market all week. The market ulated the market, and sales for that class were | to-day was brisk at an advance of 5c to 10c for the most part at more satisfactory figures over yesterday's figures. Selected heavy hogs, 300 lbs and upwards, were quoted at \$8. Choice weeks. There was no big advance, but no doubt many sales were 10@15c higher than recently and there was some snap to the trading. There was more inquiry for good heavy steers from local killers, but none of that class were offered and, therefore, just what the extreme price might have been is a question. There was a very liberal marketing of undergrade stock, and ordinarily salesmen no doubt would have had to make a sharp concession in prices, but they were a little encouraged by the absence of better grades and succeeded in getting nearly steady prices for all of the fair to medium cattle they could sell. At times, however, it was difficult to move the supply at any price, and at such times no doubt occasional sales were lower. At the extreme close of the week there was a liberal run of cattle on the stocker and feeder order, and, while there was a fair demand and a large number changed hands, the outlet was not sufficient to exhaust the supply and quite a number had to be carried over unsold. There were no native steers here this week good enough to bring over \$7.35, while \$4 was the highest price reported for Texas, and the extreme price for heifers and cows was \$5, bulls \$4.50 and calves \$7.50. Quite a number of high-grade feeding steers sold around \$4.75@5, and less desirable stockers ranged from \$2.50 to \$4.65. More than the average Saturday run of cattle arrived for the market togrades represented, and it developed that there were not many of the offerings that were attractive to buyers at this time. Some were possibly better than the trade here could use, while others, and perhaps most of the supply, were not fully up to the standard in quality or flesh. Therefore, the demand was of no importance, and the market was necessarily very dull. All that could be sold brought about steady prices, but the market closed with a large number of

Plain fat 1,200 to 1,300 lb Good to choice 900 to 1,150 lb steers.... Plain fat 200 to 1,150 lb steers..... hoice feeding steers, 1,000 to 1,100 lbs. ood feeding steers, 900 to 1,100 lbs .... 4.5000 Medium feeding steers, 800 to 900 lbs.. 4.00@ Common to good stockers ..... 3.50@ 4.50 Good to choice helfers ..... 4.00@ 5.00 Common to fair bulls..... -Cows. Hogs-Receipts, 1,500; shipments, 500. The re-

celpts of hogs this week show a decrease of over 1000 compared with last week and a little provement over the same time a year ago and a ending time two years ago. The receipts thus far this year are a little over 160,000 smaller than the same period last year. For the week ending yesterday the leading local packers bought a total of 6,187, against 8,137 the preceding week and 11,743 the same week a year ago. Dur ing the same period the shipments were \$,069, against 5,120 the preceding week and 1,532 the corresponding week a year ago. The quality this week has been generally good, and a large number of choice heavy hogs were marketed. There were frequent changes in prices, but they were and lights \$7.05@7.60; packers, \$7.50@7.75; butchnot of as great importance as last week and two weeks ago. There was no time that there was to exceed 10c change on any grade, and usually opened with a decline of 5c, but this was regained on Tuesday. On Wednesday there was another reaction of 5e to 10c, but from that time until the close of the week there was a gradual upward movement in values, and at the close of the week prices were at least 10c higher than the close of last week. The different buyers were not wanting all grades of hogs, but shippers required the good medium to heavy kinds, while packers confined their buying to the lighter weights, and, therefore, there was always an outlet for the supplies at current prices. There was very little inquiry, however, for good hogs averaging over 300 lbs, and some of that class brought here last Saturday were still in the pens The extreme price of the week was \$7.33 paid to-day, and the lowest price was \$7.75 on Wednesday. Shippers have been the principal support of the market and bought a larger numper of hogs than packers, which, of course, is unusual. The receipts to-day were small, being ,000 less than a week ago and show a slight change compared with a year ago. The quality good, and, with reasonably strong competi tion between packers and shippers, the supply was exhausted early. In a general way prices were probably not to exceed 5c higher than yesterday, but occasionally it was claimed that there was 10c advance. The market closed at the advance. Sales ranged from \$7.40

to \$7.85, and very few were reported below \$7.65.

loughs and stags..... 6.50@7.25 -Representative Sales .-7.80 68

Sheep-Receipts small; shipments none. This week's receipts of sheep and lambs exhibit a derease of over 300 compared with last week, nearly 1,100 compared with the same week a year ago and an increase of about 400 over the corresponding week two years ago. The receipts thus far this year are little over 4,000 smaller than the same period last year. The early part of the week the tendency was rather lower, and occa-sionally the sales of lambs were made 50c under the high price last week. Sheep, however, conweek there was a stronger tendency in the market for lambs, and at least 25c of the early loss in prices was regained. The supplies were not large enough to accommodate the local demand and at he same time encourage competition from outside sources, but good clearances were made every day. The highest sales of the week were practically \$4.75 for lambs and \$3.50 for sheep, but small bunches of lambs were reported as high as \$5 and sheep as high as \$4. There were very few fresh arrivals to-day. Consequently he market was quiet, but sales were at about teady prices compared with yesterday. Lambs ere reported at \$4.50 and sheep \$3. Quotations: Good to choice lambs.....\$4.00@4.50 Common to medium lambs...... 3.00@3.7

Transactions at the Interstate Yards. INTERSTATE STOCKYARDS, INDIANAPO-LIS, Sept. 13.-Cattle-Receipts small; shipments A little better tone permeated the cattle market the past week, but the improvement was not pronounced enough to warrant any change in quotations. The demand for choice butcher stock has been good, a little better, if anything, than usual. Buyers are still spurning the common and medium butcher cattle, and the outlet for undergrade feeding stock is as small as ever. The calf market shows no change, the best still being worth \$7.50. Quotations; Good to choice steers, 1,350 lbs and

Good to choice sheep...... 3.00@3.5

Common to medium sheep...... 2.25@2.75

Stockers and feeding sheep...... 2.00@3.00

upward \$6.50@ 7.50

Good to choice 1,200 to 1,300 lb steers. 6.00@ 6.50
Plain fat 1,200 to 1,300 lb steers. 5.00@ 5.15
Good feeding steers, 1,000 to 1,200 lbs. 4.25@ 4.75 Medium feeding steers, 800 to 900 lbs.. 3.75@ 4.15 Veal calves ..... Good to choice cows and calves ...... 35.00@50.00 and a decrease of over 2,100 compared with the Common to medium cows and calves.. 20.00@30.00

Hogs-Receipts, 400; shipments, 300. The marksince July 28 and was pretty close to the record for the year. Receipts have been about normal and the quality much like usual of late. Choice than it has been possible to secure for several light hogs are worth \$7.75, with the bulk of the supply selling from \$7.65 to \$7.80. The market closed strong at quotations: Common to choice heavies..... Common to choice medium .. Common to choice light weights..... Light and heavy mixed..... Light pigs and skips.....

Sheep-Receipts none; shipments none. Sheep and lamb prices are 25c lower than they were a week ago. There has not been much doing in the local market the past week, but it is evi-dent that the demand from all sources for prime stock is as strong as ever. Quotations: Stockers and feeding sheep...... 2.00@3.00 

Elsewhere.

Envious newspapers are making sarcastic remarks about the color of the lemonade that may be sold in Mayor Johnson's tent. To head off further invidious remarks we desire to announce that there will be no concert after the main performance, and no "gentlemanly agent" will pass through the seats selling tickets and disturbing the

## CALL MONEY AGAIN EASY

STATEMENT OF SECRETARY SHAW HAS A VERY DESIRABLE EFFECT.

With Highest Loan Rate of the Year and Coal Strike On, the Market Was Generally Steady.

NEW YORK, Sept. 13.-Some assurance was imparted to the market at the opening to-day by reason of a better demand from London and early news of the government's decision to anticipate October interest on bonds, but the list was generally dull and inactive during the first hour. Commission houses did very little and foreign houses were moderate buyers. Money conditions were more favorable and, contrary to custom at the week's end, there was a brisk demand for call money, which ruled

Slight pressure was directed against some issues in the early trading, but support came later. Rumors of gold imports were again current, but appeared to have no foundation in fact. It was clearly shown that the rate precluded engagements except at a loss. The keenest interest was evidenced in the bank statement because of the many pessimistic reports and fears of an utter wiping out of the surplus reserve. Although this item shows a decrease of nearly \$3,382,000, there remains a balance of slightly more than \$700,000, the result of a heavy shrinkage in the loan account. The statement proves beyond doubt that a number of banks are at this time much below the legal reserve requirements. The loss in cash, slightly over \$7,000,-000, was about up to expectations. The market appeared to take kindly to the bank statement and this, together with the ac-

tion of Secretary Shaw, brought increased | Belt pref ......

Reserve, \$3,381,975, decrease. \*Decrease. activity with improved prices to a number of leading issues, including St. Paul, Read-Banks and Trust Companiesing, Pennsylvania, New York Central, Missouri Pacific, Illinois Central, L. & N., B. & O. and Sugar. The closing was strong The passing of another week with the coal strike still unsettled and an advance

in call money to 20 per cent., the top figure of the year, finds the general list moderately steady and higher in not a few instances. Financial students declare that this rather anomalous condition is due largely to the underrating of this country's resources. They point to the gratifying crop reports—as a matter of fact they were less satisfactory as to cotton and corn at the week's end-and the increased cattle, principally on the stocker and feeder order, remaining in first hands. Quotations:

Good to choice steers, 1,350 lbs and upwards.

Piain fat steers, 1,350 lbs and upwards. 6.250 7.00 good to choice 1,200 to 1,300 lb steers.

of St. Paul common on a 7 per cent, dividend basis, this action having been advocated, it is said, by the strongest interests in the road. The "street" attached no ordinary significance to the increase in view of the road's established reputation for conservatism, but the stock failed to make response in this market or abroad. Reports that George J. Gould is to become a director in St. Paul gave weight to stories of a St. Paul-Missouri Pacine alliance. The course of Missouri Pacific was interesting, that stock touching a new high record, with St. Paul, and both selling off proportionately. Another event was the decision of the B. & O. directors to issue \$42,500,000 new common stock, part of which had been authorized last year. Impressions are current that some new dealing with the general railway situation in the South will soon come out, and that the settlement of the L. & N.-Southern Railway matter will bring | American Can ....... benefits to the Seaboard Air and Atlantic Coast lines. Call money fluctuated wildly, the rate ranging from 31/2 per cent. early in

the week to 15 per cent. on Thursday and 20 per cent. yesterday. The bank statement figures showing loss of over \$7,000,000 in early forecasts added to yesterday's feeling of apprehension, with resultant declines. Foreign exchange broke violently several times during the week, thereby increasing the probability of gold imports, but with the exception of \$2 .-000,000 in transit from Australia no consignments were announced. The second installment of about \$15,000,000 on account of subscriptions to the New Oregon Short-line participating bonds is due next week, but arrangements to meet this payment have been made, it is said, in a way to cause no disturbance to the local money situation. The bond market during the week was unusually active, with a large percentage of the dealings in Wabash debenture Bs, which at one time showed a gain of over s points, resulting from the heavy speculative purchasing movement. The market was generaly firm in sympathy with stock manipulation. United States threes advanced 1/4, the new fours, regular, 11/2, and the new fours, coupon, 1%. The old fours de-clined 1/2 as compared with the closing call

of last week. The following table shows the range of prices on Saturday: [Granger Farwell & Co.'s Telegram.] Open- High- Low- Clos-INDUSTRIALS-American Grass Twine .. American Ice pref .... Markets for Silver.

NEW YORK.-Bar silver, 511/2c; Mexican LONDON.-Bar silver, 23 13-16c per ounce.

Specie and Merchandise Movement. NEW YORK .- Exports of specie from this port to all countries for this week aggregated \$517,939 silver and \$6,000 gold. The imports of specie this week were \$9,977 gold and \$13,395 silver. The imports of merchandise and dry goods at the port of New York this week were valued at \$11.857,565.

#### Shaw to the Rescue.

[Granger Farwell & Co.'s Telegram.] NEW YORK, Sept. 13 .- The reports that \$5,000,000 had been engaged for importation next week and that Secretary Shaw would anticipate October interest and increase deposits in national banks, helped the market after the bank statement appeared. The coverings of shorts also helped prices and the pools did what they could to advance them when this was going on. There was very little buying by commission houses, except, perhaps, in a few lines of the lowprice issues. In fact, the market is mostly a Wall-street affair and will probably remain so until conditions change somewhat.

### ALL CEREALS SLUMPED

FROST NOT SEVERE ENOUGH TO BENEFIT CHICAGO BEARS.

Anti-Corner Decision Also Affected the Market, and Corn and Other Grains Closed Lower.

CHICAGO, Sept. 13 .- Frosts of reported killing severity had no effect on the prices of grains today. Expert corn shorts, after analyzing the situation, declared themselves powerless. Prices lost all semblance of firmness, and, when it became known that Judge Chytraus had ruled against the board and its members who were defending the July oats corner cases, general slumps followed. At the close September wheat was %c off. December wheat %@%c lower, September corn 1c down, December corn %@%c depressed, and December oats 14c off. January provisions closed unchanged to 10c lower.

Corn started a trifle better than it left off last night. The frost was the steadying influence. Reports, however, were conflicting as to the damage done, especially those from Iowa. Some advices had it the grop was hurt 30 to 50 per cent., while others said the damage was slight. Outside orders were light and the crowd soon turned toward the selling side. Warmer weather predictions had much to do with the change in sentiment, but in this, as in every other pit on the floor, the court's ruling against the power of the Board of Trade directory to enforce its rulings on marginal deposits had a depressing effect. Receipts showed some increase as well as a greater percentage of contract trading than for some time past. The best prices of the day were made at the start, although an excellent export business developed. December started at 44%c and slumped le to a weak close % 6 %c down at 43%c. September sold from 60c to 60%c, and broke to a weak close, ic off, at 59c. Receipts were 205 cars, 65 of contract grade. Wheat opened without much change in prices, but did not long maintain its steadiness. There was a feeling early that further frosts last night would brace up corn to such an extent that wheat would be down after. When corn disappointed there was liberal selling on some bearish reports. Receipts in the Northwest gave unmistakable signs of an increase in the spring movement and the weather was a further aid in that respect. Cables were lower, the sentiment was bearish and there was some selling on stop orders. Large estimates of world's shipments, over 10,000,000 bu for the week, had its weakening influence as did the talk of quiet selling by a heavy holder of long wheat. Sentember heavy holder of long wheat. September opened %c up at 73½c, fell to 72½c and rallied fairly, although the close was weak %c lower at 72%c. December started a shade up to a shade down at 691/2069c and closed at its low price, %@%c lower at 69%c, Local receipts were, 182 cars, none of contract grade; Minneapolis and Duluth reported 780 cars, making a total for the three points of 962 cars, against 572 last week. This day last year was a holiday. Primary receipts were 1,189,000 bushels. Seaboard clearances in wheat and flour equalled 383,000 bu. The seabord reported 30 to 32 loads taken for export. Oats showed even less animation than yesterday, prices moving only %c. Weakness in other pits and the oats decision were the factors in a depression that lost 4c for December options in the day's business. A fair demand developed on the slight breaks, and thus checking a further decline. Trade was peculiarly local and largely of a scalping nature. December sold between 311/2c and 311/3c and closed at 311/4c. Receipts were 184 cars, 12 of contract grade. Provisions eased off after there had been steady firm hog market influencing offerings in January pork. There was considerable covering later and the near-by months all showed improvement over yesterday, although trade was dull. Lower grain prices had some effect and January products closed weak, pork 10c lower at \$15.121/2. Lard, 21/2c down at \$8.60, and ribs unchanged at \$7.971/6. Estimated receipts for Monday: Wheat, 235 cars; corn, 265; oats, 225; hogs, 27,000 Leading futures ranged as follows: Articles. Open-

Spot market easy; No. 2 red, 764cc elevator; No. 2 red, 75c f. o. b. affoat; No. 1 northern Duluth, 791/2c f. o. b. afloat. After a steady opening on the corn strength wheat fell off and throughout the forenoon cables and larger Northwestern receipts.

Prospects for bearish weekly statistics on
Monday and realizing, the class was dull and easily influenced by the lower

# Buy December Wheat for 80c.

ber, bears instead of buils are paying carrying charges. Experts from this country are averaging 5,000,000 bu. weekly, or fully equal to last year, largest on record. Stocks of Wheat everywhere are at a minimum, and not increasing. Threshing returns of Spring Wheat a big disappointment, and receipts at primary markets about half as large as one year ago. Crop this year under 600,000,000 bu.; last year 750,000,000 bu. Such a combination warrants a price for December Wheat above 80c. I believe it will sell there. Purchases made now, and margined 5c per bu., should result in big profits. Write for my market letters.

## Your orders in futures and consignments of cash grain solicited. 231-235 Rialto Building, Chicago.

### An Attempt to Show that Democrats

LEADERS AND PRINCIPLES.

Are Supplied with Both. To the Editor of the Indianapolis Journal:

Ex-Secretary Whitney, of New York, is entirely too despondent when he declares that "the Democrats have neither an issue nor a leader." Are William Jennings Bryan and Grover Cleveland so soon forgotten? So long as these two distinguished statesmen are "spared to us" it can hardly be said that the Democrats are without leaders. It is true they may not "pull together," but that makes no possible difference to our Democratic friends. William LIVERPOOL, Sept. 13.—Wheat—Spot No. 1 northern spring firm at 6s 4½d; No. 2 red Western winter dull at 5s 10½d; No. 1 California steady at 6s 4½d. Corn—Spot quiet; American mixed, 5s 11d. Flour—St. Louis fancy winter quiet at 8s 3d. Beef strong; extra India mess, 167s 6d. Pork strong; prime Western mess, 36s 3d. Hams—Short cut, 14 to 16 lbs, firm at 56s. Bacon firm; Cumberland cut, 26 to 30 lbs, 61s, 6d; short ribs east of Ohio, and Grover's assistance will not be required west of Pennsylvania! This will be a great saving in every way. Down East they can bet on the golden "bob-tailed horse," while out West they can put their money on the "silver gray." Let our Democratic brethren cheer upthey have leaders to spare! As to issues, there can be no trouble. All they have to do is to find out what Republicans favor and then "deplore" and "denounce" and "view with alarm" and all will be well. But our Democratic friends are not satisfied with a common, plain issue; they must have a "paramount" issue. In 1896 they had free silver for their paramount issue. And now,

Democratic convention in this State he Bryans and keep them from saying any-Oats | are only good for a single campaign. But are the forlorn Democracy to be deprived of an issue in the coming campaign? Certainly not. Whenever they lose on free silver or the poor, oppressed Filipino, they can always fall back on the tariff! Ever since Henry Watterson invented the ex-pression, "Tariff for revenue only," there hasn't been a Democrat in all the land who could not shout: "The tariff is a tax and the consumer pays it." So could a parrot, and with just about as much knowledge of the subject. They want a tariff for revenue only. What does that mean? In the first place it means that there is to be no protection whatever. It means that the tariff is to be so reduc that imported articles can be had at a less price than they can be produced by our own manufacturers. If not, how are you to get the revenue? You cannot coll revenue on goods that are not bought in a foreign market and that are not made by foreign workmen. It means a great in crease of importations and a very great decrease in the amount paid to our own wage-earners. You cannot buy an article in Europe, and at the same time pay an Indianapolis mechanic for the making. Does any tariff reformer believe that it would be better to buy our saws in Engand than to buy them from manufacturers in this city? If so, he would close up the local establishments and set the hu of employes adrift. What difference does it make to your festive free-trader whether our mechanics have work or not? Reven is what he wants, and revenue only. And how can he collect the revenue unless he imports the saws, and how can he imp them unless they are made in England instead of being made in Indiana Every dollar's worth of goods made abroad and imported and used in this country just so much taken out of the pockets our own mechanics, just so much bread taken out of the mouths of his own family

#### JOHN B. GLOVER. Indianapolis, Sept. 13.

portations so that our free-trade fanatics

can have revenue and revenue only, they

If our saw makers want to increase

should vote the Democratic ticket.

The Political Girl.

"Now that you bachelor girls are going into politics, and are beginning to indulge in club quarrels," said a clever bachelor to a bachelor girl not long ago, "I sup you will feel a little less uplifted and perior when you contemplate the lot and character of your masculine acquaintances." "Not at all," responded the bachelor girl addressed, cheerfully eluding the danger of being pushed into a conversational or argumentative corner; "not at all, my dear sir. Our new experiences, our clearer insight into the dubious ways of certain workers and forces, and our own occasional and consequent lapses from the courtesy for which we have so long been distinguished, but teach us deeper sy thy with and pity for our masculine clates. If it is so terrible for us to indi in these lapses very occasionally, in much more terrible must be the situation the unfortunate sex which knows them of daily occurrence and which has become so hardened that it has even ceased to re-
